

*A Coffee Cup Reading revolves around the belief that the coffee grounds left in ones coffee cup can be used to receive insight into the past, present and future.*

*Various forms of divination have been practiced for thousands of years and a Coffee Cup Reading is a magical way of uniting symbolism, ritual and clairvoyance to best foresee what the querent wishes to.*

*There are no boundaries or limits when receiving a Coffee Cup Reading, any image, pattern or sign can reveal itself.*

*Such a process is never bound by time. Every reading is unique.*

*When requesting such a divination ensure to present yourself as a blank canvas. Allow the art of the past, present and future to make itself known to you.*

*With an open heart and mind this magical and mysterious form of divination can indeed enchant.*
